Career Objective

I am a motivated Web Developer with practical experience in creating responsive and dynamic web applications using React.js, Node.js, Express.js, and MongoDB. I am looking for a Frontend Developer position where I can use my skills in JavaScript, UI design, and problem-solving to build simple, user-friendly websites and work with a creative team.

My Skills

- **Frontend:** HTML-5, CSS-3, Tailwind CSS, Bootstrap, JavaScript, React JS, React Router, Axios, Firebase.
- **Backend:** Node JS, Express JS, MongoDB.
- **Programming Language:** JavaScript.
- **Other Tools:** Git, GitHub, JWT, Netlify, Vercel, Firebase, Figma, Adobe Illustrator, Adobe Photoshop.

My Projects

Car Rent- Car Rent mangement System.

[Live](#) | [Client](#) | [Server](#)

Developed a responsive car rental web app using React, Node, Express, and MongoDB. Implemented seamless booking, modern UI, and user friendly experience for smooth vehicle reservations.

- **Frontend:** React JS, React Router, Axios, Firebase, Tailwind CSS, CSS-3, JavaScript.
- **Backend:** Node JS, Express JS, MongoDB, JWT, JavaScript.
- **Deployment Tool:** Netlify, Vercel.

Job Portal – Job Management System

[Live](#) | [Client](#) | [Server](#)

Developed a Job Portal website using the MERN stack (MongoDB, Express, React, Node.js). Implemented job listings, user authentication, and responsive design for easy job search and management.

- **Frontend:** React JS, React Router, Axios, Firebase, Tailwind CSS, CSS-3, JavaScript.
- **Backend:** Node JS, Express JS, MongoDB, JWT, JavaScript.
- **Deployment Tool:** Netlify, Vercel.

Xecta- Landing Page.

[Live](#) | [Client](#) | [Server](#)

Developed a responsive Job Portal website using the MERN stack with secure authentication and job management features.

- **Frontend:** React JS, Tailwind CSS, CSS-3, JavaScript.
- **Backend:** N/A
- **Deployment Tool:** Netlify.

My Experience

Computer Operator [Chief Judicial Magistrate Court, Kushtia]

01, Jan 2025 – Present

Efficiently manage, draft, edit, and prepare official documents, reports, and data using Microsoft Word and other office tools, ensuring accuracy, proper formatting, and professional presentation in all administrative tasks.
